Church and State.

Render unto Caesar the things which are Caesar's and unto God the things that are God's.—Matthew 22, 21.

Lutherans in Canada, recognize two kings, a political king, George the Fifth, and a spiritual King, Jesus Christ. Lutherans hold that the State and the Church are and ought to be for the good of either, separate institutions, each having its own sphere of work and authority. The Church must not attempt to influence politics and legislation. It should preach the Gospel. The State must not attempt to teach religion, as in its schools, nor must it permit the teaching of irreligion, as in its Universities. Its courts must not sit in judgment on blasphemers as in the Sterry case. Its function is to protect life and property, maintain justice, encourage material progress. As the Church is non-political so the State is non-religious.

Canadian National Railways

Farm Help Service.

Farmers who will be in need of Help for this year's operations should apply at once to their nearest Canadian National Railway Station Agent, or forms for ordering Help may be secured by writing to the Department of Colonization and Agriculture, corner Jasper and 100th St., Edmonton, or to

Paul Werner, - Stony Plain.

Tune in on the

Alberta Wheat Pool RADIO TALKS!

EVERY THURSDAY EVENING
FROM CALGARY

At following times, using stations alternate weeks:

Calgary Herald Radio Station, CFAC 9.15 to 9.30 p.m., immediately preceding O.N.R. program.
W. W. Grant Radio Co., CFON, 8.45 to 9.00 p.m., following studio program.

EVERY MONDAY EVENING
FROM EDMONTON,

Edmonton Journal Radio Station CJOA, from 8.15 to 8.30 p.m., preceding University of Alberta program.

LOCAL NEWS.

Lydia Henning, daughter of Mr Chris. Henning, was operated on for appendicitis in an Edmonton hospital on Friday last, and is now doing as well as can be expected.

John Miller (son of Mr and Mrs Ph. Miller) celebrated his 21st birthday on Monday, and received the congratulations of his friends on reaching man's estate.

Mr Munroe has done more to make Stony a better place to live in than any three of our citizens. He left town last week.

Mr. Gus Mintz, who has been farming at Glory Hills, intends holding a clearance sale at his farm, on Friday, March 25. Gus is giving up farming for the present, is moving into Stony, and will occupy the Orange House on Oakway Avenue, after the sale.

The Great Waterways committee of the town council have had a busy time, since the thaw began, draining upper Main street. On Monday the walkway by Windel's corner was under water. A sign posted here (not by order of the mayor) intimated that bathing in the pool was limited to male bathers, and these must wear the regulation costume.

A three-hour dance was given Saturday night in the Windel Hall by Barth's Orchestra.

At the meeting, Friday, of the H. S. Lit. the pupils of grade ten gave the program of the day, consisting of a skit in which the Misses Alt, Eiders, Robbins, and Messrs G Clarke and L Outway were engaged. The party were well taken, and the sketch was appreciated by the select audience present.

The hockey team from Fallis came to Stony on Sunday last and played the Stony team at 10 a.m. on the local rink. This was Fallis' first visit here, and their team made a good showing, in spite of the fact that the ice was getting soft toward the latter end of the game. The final score was 0—0. The condition of the ice precluded any further play. Stony's team—Heichen, J. Miller, D Moyer, L Outway, Jac Ulmer, Hy Klapper, H Wolfe, Clarence Anderson referred in a very satisfactory manner.

At a sitting of the District court in Wainwright on Mar. 15, six large debt actions for amounts between \$100 and \$500, came before Judge Taylor. All were brought by the Interior Oil Co. for promissory notes given by farmers for oil stock. Judgment, with stays of execution for short periods, were entered against Kulack, Zucht, Klapper, Badke, Getsinger and Watson. The actions were undefended, says the Edmonton Journal. The names sound familiar to the Editor.

British vs. Foreign Born

The subject of immigration to Canada is, it is gratifying to note, engaging the attention of the people of the Dominion to an ever increasing extent. A very real interest is being aroused, and this interest is not confined to Canada, but is much in evidence in the British Isles. This growing interest is occasioned, not only because of a realization of the fact that one of Canada's national requirements is a larger population, but because it is becoming increasingly clear that in the present and succeeding years, Canada will be the mecca of the surplus population of older and more congested lands.

Much of the discussion around this subject is as to the effect of this larger influx of population upon the future character, ideals and national values of the Canadian peoples. Few are expressed in the opinion that non-English-speaking peoples will readily assimilate into Canadians and the British-born, with a resulting gradual weakening of the ties binding Canada to the Empire, and the possible introduction of customs and ideals not wholly acceptable to those of British descent. It has been argued that Canada should restrict immigration to men and women of British descent.

While it will be generally admitted that greater encouragement should be given to British immigration than to immigration of other races, it is a pity and a grave mistake that people strongly urging this view should indulge in mis-statements in their references to the present composition of Canada's population, and more particularly the racial classifications of the people of the Western prairie provinces.

Speaking before the Canadian Club of Vancouver recently, Mayor Webb of Winnipeg is credited with making the statement that fifty-five per cent of the people of the prairie provinces were non-British. It would be interesting to have Mr. Webb submit some proof in support of such a statement, because the official census figures do not support him.

At a meeting of the Women's British Immigration League held in Saskatoon a few weeks ago, the even more astounding statement was made that "after a careful study of statistics" it was established that Saskatchewan's population was 75 per cent. foreign born and only 25 per cent. British, and a Saskatoon paper headed its report of this League meeting with a two-column display declaring "Province's Population is 75 per cent. of Foreign Extraction."

In view of the circulation of such misinformation from what might well be accepted as authoritative sources, it is well that the actual facts should be given wide publicity.

According to the census of 1921 the population of the three prairie provinces was 1,956,082, and was officially classified as follows.

| | Born in Canada | Born in British Possessions | Born in U.S.A. | else- where |
|--------------|-------------------|-----------------------------------|-------------------|----------------|
| Manitoba | 287,746 | 12,114 | 21,641 | 87,614 |
| Saskatchewan | 457,832 | 106,355 | 87,617 | 111,765 |
| Alberta | 215,099 | 95,392 | 99,879 | 74,093 |
| Total | 1,150,669 | 313,861 | 309,140 | 273,412 |

In other words, out of a total population of 1,956,082, no less than 1,473,530 were British-born, either in Canada or in Great Britain and other British countries. That is, a little better than 75 per cent. were British-born as compared with less than 25 per cent. non-British, a contrast to Mayor Webb's figure.

The figures quoted at Saskatoon relative to Saskatchewan should just be reversed—75 per cent. born under the British flag and only 25 per cent. under all other flags being the correct classification.

It is a well known fact that thousands of our people classified as born in the United States or the children of Canadians who emigrated to the western middle states in the eighties, while other thousands are of British descent.

Canada is British and British to the core. The Anglo-Saxon has demonstrated his right to assimilate other people, and no one race has done more here in the West we know that most of our non-British people have a high regard for democratic British institutions, a real appreciation of British liberty, and a deep respect for British law. They are glad to have their children educated in regard to these things, and in a generation or two it is well nigh impossible to distinguish them from those of British descent, except for the surnames they bear.

British people themselves are the result of an intermingling of races, and in the making up of Canada there is every reason to believe that the Canadian people of the future will be one of the finest, sturdiest, most moral and intelligent races in the world.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil. Paracetic, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitation, always look for the signature of *Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Strange Performance Staged in Moscow

Remarkable Parade Was Grim Reminder of Czarist Days

Moscow witnessed one of the strangest theatrical performances in history recently. Dressed in striped prison garb and shackled with chains and handcuffs and with shaved heads, 300 actors paraded the streets of the capital guarded by Cossack prison wardens carrying knouts and swords. The purpose of this grim procession was to show the present proletarian public that political offenders were punished in Czarist days and signified the tenth anniversary of liberation from imperial jails of professional revolutionists.

Each "convict" wore on his back a large acre of diamonds which in pre-revolutionary days was accepted as a symbol of degradation and opprobrium. The entire company proceeded to the Meyerhold theatre where they gave a drama based on prison life under the emperors.

Agony Of Lumbago Quickly Soothed Away By "Nervilene"

For the sharp, piercing pain of Lumbago, and the tormenting aches of Rheumatism, nothing is so efficient, so quick to bring comfort and relief as good old "Nervilene." This remarkable liniment penetrates through the tissues of the body, sinks down to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. It is also good for stiff joints, swellings and Rheumatic disorders. It is safe to use. Additions should use Nervilene, the King of Pain destroyers. Get Nervilene today, 50¢ at all dealers.

Speaking of fruit, the first apple caused a lot of trouble for the first pair.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable, when it is colicky, when it is so-called soothing nutriment to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative to sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. Concerning them, Mrs. Jos. Toshalski, St. Sophie, Que., writes:—"I would like to call your attention to the gentle laxative I found there in other medicines to control Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health again. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Wills' Medicine Co., Brockville, Ont.

Rural Mail is Heavier

More Use Being Made of Postal Reduction Than Was Anticipated

When penny postage was inaugurated through the budget of last year it was estimated by the minister that the loss in revenue from the decrease in the former three cent rate would be approximately five million dollars.

It is stated that, while there has been little increase in the volume of business letters, the return to penny postage has quite appreciable stimulated letter mail in the rural districts and that as a result the decrease in revenue will be, not five millions, as estimated, but about two and a half millions.

The department will show a considerable deficit for the current year, but not nearly so great a deficit as expected.

Princes Fond of Jazz

Though jazz is not popular with the senior members of the royal family, the juniors greatly enjoy it. The Prince is a skilled and enthusiastic trap-drummer, and Prince George is a virtuoso on the same very modern instrument. Prince Henry, however, has more classical tastes and eschews the丑grod melodies for opera and symphonies.

A century ago a physician told Tip-Top Gillette's parents that he could not live long, as he had only one lung. He died recently at the age of 102.

"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mme. Beatrice Charlebois, of 22 Bloor Street.

"What I endured in that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor and I was unable to sleep without trouble. Gas and pain would bring on fainting spells.

"My nerves were so completely shattered that I jumped in flight every time the doorbell rang. My hand trembled so that I could not hold a pen. I could not get a night's sleep without having a nervous tic. Even my housework became too much for me."

"I took all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I regained 11 lbs., eat and sleep fine and have nerves as

calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has it. Over 20 million bottles sold.

New Place Open For Canada

Can Have Seat on Geneva Council Says Herbert Holt

The universal esteem in which Canada is held throughout the world is liable to bring the Dominion face to face with the question whether or not she will accept a place on the council of the League of Nations. Sir Herbert Ames, financial director of the secretariat of the League of Nations, told the Ottawa Canadian Club.

He predicted that if a short time it will be demonstrated that Canada wants a seat on the council she can have it with the goodwill of all the members of the League.

This goodwill, he added, was deserved because Canada had always played the game and taken her full share of responsibility in connection with league matters.

There existed at Geneva, he added, an atmosphere for peace and the men who were making international reputations were the men who came to Geneva ready to make concessions.

Sir Herbert suggested that the change be carried out by declaring that fear had been replaced by security, force by compromise, despotism by hope and co-operation had replaced competition.

As in nature, so in government—nothing is permanent—but that is violent.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

The greater bore a man is the smaller the hole he leaves behind him.

Too Much to Believe

"It just ain't," exclaimed Mary Curia, 75 who hobbled from her home at Snowbound Silverton, Colorado, to observe the first aeroplane she had ever seen.

Her Kidneys Were In Pretty Bad Shape

Manitoba Lady Tells of Benefits Received From Dodd's Kidney Pills

Mrs. J. D. Beatrice in a Few Words About Why Dodd's Kidney Pills Are So Popular.

Minnetta, Man. (Special)—"My kidneys were very bad and I felt as though I could not walk or anything else around. I thought I must try Dodd's Kidney Pills, which I did, and they helped me very much. After taking two boxes I began to feel well again and now they are fine."

What Mrs. Beatrice states is all that has ever been claimed for Dodd's Kidney Pills— that they are good for sick kidneys. The road to good health through kidneys. If they are kept strong and well, all the impurities are strained out of the blood. If they are weak and out of order the impurities in the blood and disease is the sure result.

Dodd's Kidney Pills keep the kidneys in good condition to do their work of cleaning and purifying the blood.

Weak, nervous, run-down women should give Dodd's Kidney Pills a trial at once.

She: And will you ever stop loving me?

He: Well, I have to get to the office by ten tomorrow morning.—Life.

A safeblower doesn't blow about it later.

While it is well known that Aspirin is a registered trademark of the Bayer Company, it is also known that the Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

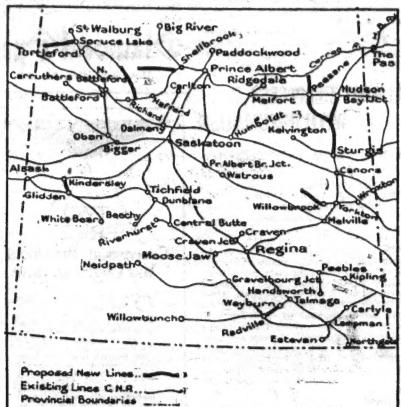

Program of Construction Work In Saskatchewan Proposed By The Canadian National Railway

The programme of construction work on the Canadian National Railways in Saskatchewan to be completed by August, 1936, and now having the consideration of Parliament, contains the following lines:—

Weyburn to Big River, 22.7 miles.—Two objects, the railway management states, would be attained by the construction of this line; first, relief would be given to the farmers along its route in respect to their wagon haul to market; and second, the communities Radville, Bengough, and Willowbunch would be brought into more direct rail communication with the distributing centre of Weyburn, their rail distance to Weyburn being reduced by 133 miles. The route to Moose Jaw would be 18

Shellbrook (or near Parksides), Weyburn, 37 miles.—For a considerable time the people living in the district to be traversed by the proposed line have been in need of railway facilities. There already is good settlement and development, there being a high proportion of excellent agricultural land for grain growing and mixed farming. This branch which, in the opinion of the Railway, would be justified by the cutting down of the wagon haul of the settlers and the opening up of more land, eventually would be extended to the Turfleld-Hafford line.

Turfleld, S.E., Mile 67, to between Hafford and Richard, 35.6 miles:—The reason for proposing this line, is the Railway management states, is

miles shorter and to Regina, 28 miles shorter. The line would run through well settled grain-growing district and one which has no farms is increasing. The road haul of the farmers to market at present reaches 15 miles. In the centre of the area, and the farmers are looking forward to the development of dairying if their road haul is reduced.

Willowbrook, North-Westerly, 22 miles.—This is a development and colonization branch in the mid-eastern part of the province. The purpose of the line is to give better railway communication to the district north-west of Willowbrook, lying between the Yorkton branch of the C.P.R. and the main line of the Grand Trunk Pacific. Eventually it is planned to extend this line through the unversed area between the existing railways. With the exception of the Beaver Hills forest reserve, the area is well populated and good crops are generally obtained. It is felt that the shortening of the road haul to the farmers will offer encouragement for further settlement and development.

Sturgis to Peesane, 100 miles:—This line in the north eastern part of the province would open up a large area of good agricultural land and give railway transportation to the Sodder Settlements south of Peesane. It would provide a shorter and better route from the small towns of Melfort and Prince Albert districts to Weyburn and the head of the lake. There is ample precipitation for crop raising and mixed farming in the area. The proposed new mileage would also form part of the link between Hudson Bay Junction and the line of the Canadian National in Southern Saskatchewan.

Peesane, Northerly, 19 miles:—The purpose of this line is to open up and give rail communication to an important section of the Carrot River country. The territory on both sides of the Carrot River, as far east as Range 9, is a very good character of soil and is now being cleared off. This is one of the best grain growing districts in the West, having ample rainfall each year. There is considerable settlement and this will be greatly encouraged by better railway facilities.

and will allow of a better handling of motive power and improved engine terminal arrangement.

Spruce Lake (Near) — Westerly, 29.5 miles:—This proposed line to run westerly from Spruce Lake is a colonization and development branch which is intended later to link up with the line running easterly from Elk Point, Alberta. Considering the topographical difficulties this branch will, as far as is possible, meet the requirements for railway relief to the districts of Paradise Hill, Tangleflax and Fort Pitt. In the districts named are good settlements with considerable development. This development will be very much increased when the transportation, which at present is difficult, is improved.

Hudson Bay Junction Southerly to meet proposed Sturgis-Peesane line, 32 miles:—This branch is proposed to link the Hudson Bay Railway with the south lines of the National System. The branch is included in the three year programme at the instance of the Department of Railways for the proper operation of railway traffic for the Hudson Bay route, on the assumption that such traffic will be offering before the period of three years has elapsed, the construction of the line being conditional upon the completion of the Hudson Bay Railway and of the ocean terminal to a point where through traffic could be handled.

For traffic to and from points on the Canadian National Railways south of Canora, with big link Hudson Bay Junction to Sturgis built, the route distance to the Hudson Bay would be shorter by 130 miles than by existing lines. It is calculated that 160 trains (of 50 cars each) routed by this cut-off, exclusive of local traffic would justify the annual cost

Is Canadian Better Farmer?

Washington Paper Refers to Their Successful Competition With American Agriculturist:

"Is the Canadian a better farmer than his fellow agriculturists on the United States side of the boundary?" The Washington Post asks this question in regard to the passage through Congress of the Farm Relief Bill which the President has vetoed.

The newspaper finds it "difficult to understand how the Canadian wheat farmer can compete with his American cousin in the wheat market on this side of the line against the duty of 30 cents per bushel." Yet the Canadian farmer does compete in this market, the Post says, and quotes official records of imports of wheat for milling, re-export and domestic use.

"It can not be claimed," the Post goes on, "that the Canadian farmer has any advantages over the agriculturist in the United States. The climate of the Canadian wheat region differs very little, if at all, from the climate of the American wheat belt, especially the spring wheat region. Yet the Canadian grower has not asked his government to finance his operations.

Arms Party Invitations Issued
Formal invitations for the three-power naval conference to be held at Geneva as early as a date after June 1 as is convenient have been handed by the United States Government to the British and Japanese ambassadors. The text of the formal invitation is understood not to contain any fixed formulae to guide the Geneva negotiations.

Lord Byng of Vimy will soon have his estate, Thorpe Hall, Essex, England, stocked with wild ducks from the Canadian prairies. Having expressed a desire to stock his estate, he graciously accepted a gift of twenty-five wild ducks from the Provincial Government of Manitoba. The

Canadian Pacific Express Company handled the shipment through Montreal recently and delivered the ducks at St John where they sailed on for England. The above photograph shows the ducks in their cage at the Express yards. The ducks seemed to

Canadian Scientists Investigate Theory That This Continent Is Drifting Towards West

The first stage of an investigation into a theory that the Americans have been drifting westward has been completed. Canada and 29 other countries participated in the scientific effort to prove the theory first held by Wegener, an Australian geophysicist.

Briefly, the theory is that in the progress of the ages the Americas have been gradually drifting westward. It is claimed that existence of a coast range of mountains extending throughout the whole length of these continents is simply the effect of buckling or crushing at the forward edge due to this drift. The present rate of the drift is estimated at one metre a year.

Through an international arrangement 50 stations distributed in 30 countries were united in a longitude net by astronomical observations coupled with radio time signals. The relative longitude of these stations having been determined, it will be possible by a repetition of the observations at some future date definitely to settle the question of continental drift.

Canada took part in the investigation by occupying two stations, one at Ottawa and the other at Vancouver. These stations, two telescopes were constantly in use, as well as auxiliary equipment of clocks, chronometers and wireless instruments. At Ottawa astronomical observations were obtained on 33 nights, and at Vancouver on 26. At each place wireless time signals from five different sending stations were received and measured at all hours of the day and night, the total number of distinct signals amounting to over 1,300. Observations to determine the relative personal equations of the four observers engaged were made at the Dominion Observatory, Ottawa, both before and after the main series of observations.

Other investigations have established many favorable points in connection with the theory of drift. It has been determined that the substratum underlying the surface crust of the earth is not absolutely rigid but is susceptible, under the action of long-continued stresses, to gradual deformation. This condition may be considered as flowing on a substance which when considered over long periods of time, acts like a semi-viscous fluid. It has also been proved that at one time there was a much closer association between the forms of plant and animal life on the Americas and Europe and Africa.

Improved Table Corn

Three Varieties of Sweet Corn Suitable for Western Cultivation

Three varieties of sweet corn, Pickanilly, Banting and Early Malcolm, produced by the Horticultural Division of the Experimental Farms, give great promise, particularly for the cooler parts of the country. Pickanilly is rather dwarf in habit, bearing its ears close to the ground. When ready for use the kernels are white with a slight purplish tinge, broad, moderately deep, very tender and extremely sweet. As the corn matures the kernels change to a purplish black, in which condition they are still tender and sweet. Banting, also dwarf in habit, was produced from a cross between Pickanilly and Howe's Alberta Flint. Its habit of growth is much like Pickanilly. The kernels when ready for cooking have an attractive golden-yellow colour, broad, moderately deep, quite sweet and tender. Early Malcolm grows to a height of about five and half feet, bears many ears to the stem, and bears sweet, twelve rows of kernels, which are very sweet. This is probably a very desirable table corn. The report of the Dominion Horticulturist for 1925 shows illustrations of the cobs of these varieties in full size.

Soviet Purchases in Canada

Louis Kon, trade delegate for the Union of Soviet Socialist Republics, Saturday confirmed the report that an order for \$1,000,000 worth of blades, twine had been placed by Russia interests with a Brantford firm. Mr. Kon stated that large purchases of other goods were being made in the Dominion.

**SCOTT'S
EMULSION**

WORLD HAPPENINGS BRIEFLY TOLD

The King and Queen will hold royal courts at Buckingham Palace on May 24 and 25 and June 21 and 22.

Lady Rhonda has instituted a whirlwind suffrage campaign designed to influence the Prime Minister to support a measure granting a ballot to all women over 21.

Students of Oxford and Cambridge Universities took part in a boat race for the first time. The Oxford crew won. The race was over a half-mile course on the upper Thames.

Telephone service between Cuba and Great Britain was recently inaugurated. The rate will be \$8 for the first three minutes and \$2 for each additional minute between Havana and London.

Montreal was a much more law abiding city in 1926 than in the preceding year, according to statistics just announced by Chief of Police Belanger. There were four murders, one less than the preceding year, the other crimes have shown more noticeable decreases.

"CASCARETS" FOR YOUR BOWELS IF HEADACHY, SICK

To-night! Clean your bowels
and end Headaches, Colds,
Sour Stomach

Get a 16-cent box.
Put aside once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passage away through the bowels, but do not thoroughly cleanse the bowels and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep our "Inables" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and cleanse the system all the consolidated waste matter and poisons in the bowels.

A cascaret tonight will make you feel like a new person. Take one while you sleep—never gripes, sticks, and cost only 10 cents a box from your druggist. Millions of men and women take Cascarets now and then and never have Headaches, Bitterness, Severe Colds, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong to every household. Children just love to take them.

The average man spends a lot of money for experience and then gives other people the benefit of it free of charge.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms are soon a child's play being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at the same time afford healthy medicine, strengthening the entire stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

Smoked ceilings may be cleaned by washing them with cloths wrung out of water in which a small piece of washing soda has been dissolved.

ATHLETES!

Minard's will lube up stiff muscles and sore joints. Use it for a rub down.

Finlanders Dislike Red

Will Not Tolerate Color Which Is Associated With Bolshevikism

Anything associated with the color red is difficult to sell in Finland and American automobile manufacturers consigned a large number of automobiles to Finland, and while most of the cars sold readily, 40 of them were unsaleable owing to the various shades of red that had been used in painting the cars. They had to be repainted to invite Finnish buyers. In few countries are Bolsheviks and Bolshevism so disliked as in Finland, hence the Finns' dislike of the color red.

Trip Will Be Brief

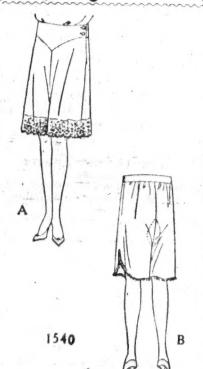

Prince of Wales' Canadian Visit to Cover Only Six Weeks

Instead of spending six weeks in his ranch in Alberta, the Prince of Wales is not likely to be away from England for more than six weeks altogether on his Canadian visit this summer. Although the detailed arrangements for his visit have not yet been completed, the Canadian Press learns that the suggested six weeks will very likely represent the whole period of the Prince's absence from England. The Prince leaves for Canada early in August.

It Will Prevent Ulcerated Throat.

At the first symptoms of sore throat, with breath ulceration and inflammation, take a tea bag of Thomas' Electrolyte Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are painful. Those who were particularly subject to quinsy have thus made themselves immune to attack.

Winnipeg Newspaper Union

The New Under-garments Give Slenderizing Lines

This woman or girl who delights in her own "lingerie" will find these garments to be quite easy to fashion and a sight to behold. They are made of needles material at the waist and hips owing to the well-fitted shaping of the body which fastens at the sides with the needles slightly gathered to a band. View A shows the straight lower edge trimmed with wide lace, and View B has the sides and waist finished with narrow lace. Size 20 waist, 26 inches long, requires 1½ yards 36-inch material, or 1½ yards 25-inch, 1½ yards wide lace, or 3 yards 25-inch for trimming. Price 20 cents the pattern.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of material. Every woman should want to make her own clothes and the home dressmaker will find the designs illustrated in our new catalog to be both practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dope" Children With Internal Medicines to Break Colds.

Children's infections are easily upset by too much medicine. Vicks VapoRub being externally applied, does not upset little stomachs.

At the first signs of a cold, crop, sore throat, or any other cold trouble, apply Vicks VapoRub.

CONSIDER PLANS FOR CELEBRATION OF JUBILEE DAY

Ottawa.—At the first meeting of the National Committee for commemoration, held here, for the organization was carried out, officers were elected and numerous suggestions were received as to the form the celebration should take.

A suggestion that His Majesty the King should open the celebration by touching a signal in London, immediately after which the new carillon in the tower of the Parliament Buildings would ring out, and he broadcast to all Canada know of the nation's 60th birthday, was considered, and practically approved.

During the discussion, M. J. Coldwell, president of the Canadian Teachers' Federation, said that great attention should be paid to the share of children and young people in the Jubilee celebration. He said that the organization he represented was not greatly in favor of spending a large amount of money on parades and fireworks.

George Edwards, president of the Canadian Council of Agriculture, said he believed it expressed the views of organized agriculture when urged upon the committee that the celebration should not be predominantly military. There should be pageants where the achievements of the pioneers should be portrayed.

The draft of the organization of the corporation, consisting of the committee, approved by act of Parliament, was agreed to. A vote of thanks was expressed to Lord Willingdon and Lady Willingdon.

In replying, Lord Willingdon stated that he was proud to be a citizen of Canada at the present juncture, and that he, and Lady Willingdon, would join in the work to make the commemoration most successful.

Unemployment Insurance

Labor Member for North Winnipeg Introduces Resolution

Ottawa.—A resolution declaring that the committee on industrial and international relations should be instructed to investigate and report on the establishment of a system of insurance against unemployment, sickness and invalidity, was discussed in the House of Commons.

A. A. Heaps, Winnipeg North, Labor, the mover of the resolution, said in opening that he did not expect the committee would be able to report on the matter this session or perhaps for two or three sessions. It was a big task requiring extensive investigation.

A royal commission, Mr. Heaps said, had been appointed in Great Britain to investigate unemployment insurance and had reported recently that this form of insurance was now a permanent feature in the social life of Great Britain. The act had not been abused in Great Britain according to the commission.

Mr. Heaps stated the tariff board afforded industry in Canada an opportunity to ask for increased protection.

The human element in industry, however, was not given any protection.

Retires From Public Life

Former Chinese Premier Has Retired; All Worldly Honors

Rome.—Lu Cheng Hsiang, former premier of China, who is an ardent Roman Catholic, has renounced worldly honors and sent the Pope a case containing the high civil, military, and diplomatic decorations awarded him during his long diplomatic career. Along with the decoration the veteran Chinese diplomat sent the Pontiff a letter informing him of his decision to retire to private life and renounce all mundane pomp.

Thought Government Going Broke

West Palm Beach, Fla.—A long line of negroes staked a steady run for heavy withdrawals from the Postal Savings Department, following reports circulated, widely through the negro section that the Government was going broke.

Planning British Hollywood

Great Interest Being Taken in New Concern Capitalized at \$5,000,000

London.—Plans for founding a British Hollywood already have been started by British motion picture producers, elated over the prospective passage of the bill now before parliament to foster British motion picture production.

"British Incorporated Pictures, Limited," is being formed to promote the British Hollywood. The new concern, which is capitalized at £1,000,000, plans to promote British pictures, especially wide prints. It is stated noted artists, authors, and actors are active in the project, including John Galsworthy, Arnold Bennett, Frank Swinnerton and Sybil Thorndike.

Experienced studios, studios to be built near London, and directors to be borrowed from American organizations on a reciprocal basis. Five year options on the film rights of stories by fourteen well-known authors have been secured, it is announced. These include Arnold Bennett, John Galsworthy, Sir Hall Caine, Sir Arthur Conan Doyle, Eden Philpott, Philip Gibbs and Rafael Sabatini. Affiliated companies will operate throughout the empire.

Asks Five Millions To Leave Shanghai

Defender of City Willing to Come to Terms With Nationalists

London.—With the Nationalist forces in China keeping up their intensive struggle to surround and isolate the important Nanking position from Shanghai, comes a report from Shanghai that General Chang Tsung-Chang, the Shanxiene defender of that city, has offered for a large money consideration to evacuate the terrain he holds and thus save the region from becoming a zone of actual hostilities.

Chang desires about \$5,000,000 for retiring into the province of Kiangsu, says a despatch to the Westminster Gazette.

If the amount is not forthcoming, it is asserted he intends, if necessary, to retreat upon Shanghai itself, thus bringing the city of the Orient into the struggle for mastery between the northerners and southerners. According to the correspondent Chinese merchants in Shanghai are said to be unable unwilling to raise the huge sum demanded.

Anxious To Prevent Wars

League Interested in Keeping Peace Among Non-Member Countries

Geneva.—The League of Nations is interested in preventing the outbreak of any war, regardless of whether the nations concerned are members of the League. This was made clear in a report adopted by the League council committee engaged in interpreting the peace covenant as an instrument for preventing war. No nations are named in the report but it indicates that any dispute, even though it involve the United States, Mexico, Turkey or any other non-member, becomes a matter of concern to the council. That body should study the advisability of bringing into play all preventive measures including aerial and naval demonstrations against the state which adopts a hostile attitude.

Explorer Leaves for China

Roy Andrews Will Probe Secrets of Gobi Desert

Seattle, Wn.—Roy Chapman Andrews, noted explorer has sailed from here en route to China again to ferret out the secrets of the Gobi desert, which he believes was the "cradle" of mankind. The unsettled conditions in China make the date of his departure from his headquarters in Peking problematical, but the expedition will be prepared to push it to the west over the age old caravan trail to the desert as soon as the situation warrants.

On his last trip into the region, Andrews found dinosaur eggs estimated to be millions of years old.

Advocates Alberta Line

Ottawa.—Hon. C. A. Shantz, Minister of Railways, seems to bring down a bill to extend for two years the time for the completion of the joint section of the Canadian National branch line from Rosedale, south westerly, Alberta.

WOULD CREATE A SELLING AGENCY FOR LIVE STOCK

H. B. Road Pushing Ahead

Steel Now Within Eighty Miles of Port Nelson

Winnipeg.—Laying of steel for the Hudson's Bay Railway is now across the Limestone River and within 80 miles of Port Nelson. Is the report brought here by Constable E. P. Warren of The Pas division of the provincial police force. He reported that work was progressing very favorably under ideal weather conditions.

Constable Warren has just returned from a long patrol into Manitoba's blitzenland, seeking evidence as to the alleged poisoning of game by trap-

ers. During the trek, Constable Warren ran short of food and subsisted for several days on dog biscuits and tea. He also reported that he was compelled to destroy four of his hushies owing to lack of rations.

Infantryman and Rifle Are Most Important

Nothing Has Been Invented To Replace Them in Warfare

Ottawa.—Among all the instruments of warfare which have been invented during and since the last war there is nothing to take the place of the infantryman and his rifle, was presented at the annual meeting of the Dominion of Canada rifle Association here. A feature of the council's report was the recommendation of the treasurer that careful consideration be given the suggestion that the size of the team representing Canada at rifle be reduced from two officers and 18 shooting members to two officers and 15 shooting members. The suggestion was made in view of the increased cost of ocean transportation.

Plan To Visit Provinces

Canadian League Members Will Visit on Ministry of Education

Ottawa.—Attention was called upon the ministers of education in each of the nine provinces of the Dominion as being organized under the aegis of the League of Nations Society of Canada with a view to getting definite instruction on the origin, aims and work of the League of Nations included in the curriculum of the elementary schools throughout Canada, it became known here.

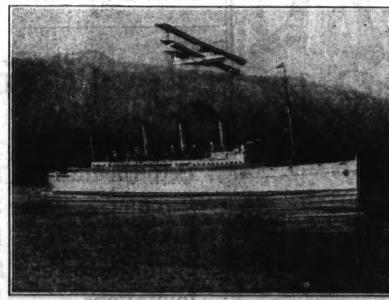

A special committee under the chairmanship of Senator H. A. Bellcourt has been dealing with the matter.

Saar Compromise Plan

Berlin.—Foreign Minister Stresemann's acceptance at Geneva or a compromise plan for policing the Saar Valley after the withdrawal of occupational troops was unanimously approved by the cabinet. The policy regarding the status of Germans in upper Silesia was also upheld.

Paying on War Debts

London.—French and Italian governments each paid \$2,000,000 recent to the British Government on their war debt accounts.

Thousands Welcome White Empress

Over 16,000 people lined the coast at Vancouver to welcome the Canadian Pacific Empress of Canada, flagship of the Pacific fleet, which had steamed into her home port from the Orient recently, glistening in the sun with white paint. She was escorted by several Canadian Government steamers.

The decision of the Canadian Pacific to make their entire Pacific fleet white, has met with approval in the shipping world and also by passengers with whom these giant trans-Pacific liners are popular. They will be known as the "White Empresses of the Pacific" and make a beautiful picture steaming through the blue waters of the Pacific.

THE OUTLOOK FOR IMMIGRATION IS VERY FAVORABLE

Ottawa.—Immigration prospects in the present year are considered particularly favorable in view of the extensive activities of the Department in connection with which Hon. Robert Forke is going to Europe at the conclusion of the session. Every arriving ship is full of intending settlers.

The Department has just renewed the agreement with the Canadian Pacific and Canadian National Railways that representatives of the companies are to conduct on the continent the selection of a hand-picked class of immigrants to engage in work as farmers, farm helpers and domestics. The Department is to accept the certificate of the railway representatives as to the occupational fitness of the immigrants for the particular work to which they will be directed, while the companies also guarantee to locate the new comers in positions.

For the purposes of the agreement, which is to be a three-years continuance of the existing arrangement, expiring next September, Europe will be divided into three areas, the principal one being the British Isles, France, Belgium, Germany, and the Scandinavian countries. People coming from those countries will not require the certificate of occupational fitness but more rigorous condition will be applied to the others.

When the minister of immigration is in Great Britain he will take up with the British authorities the question of extending the application of the plan of assisted immigration under the goldfarmer's settlement plan. This is largely a problem of securing the necessary land and in that connection substantial tracts are being offered at very low rates by the railways and the Hudson Bay Company. The whole immigration outlook is considered to be most favorable.

Workers Risked Lives Rescuing Entombed Man

Was Trapped Thirteen Hours When Side Caved In

Fuquay Springs, N.C.—Entombed for thirteen hours in a 70 foot well Jeff Ashworth, who had been pinned in the side caving in walls forty feet down in the well, was extricated after a group of rescue workers dug away the debris all night by the light of automobile headlights, farm lanterns and candles.

Ashworth was placed in the hands of physicians who he was rescued. He said that he rested easily for the last five hours of his entombment.

When he rescuing party pulled Ashworth out he was exhausted but no outward physical injury was indicated.

As soon as Ashworth's plight became known a crowd of volunteers assembled and began removing the rock curbing of the well. In shifts of three men each the rescuers were lowered into the hole and as fast as they could fill buckets the debris was drawn to the top.

Police Hunt for Poison

Bodies Laid Off Hospital Van Picked Up By Children in London Slums

London.—Sixty bodies were picked feverishly all one night trying to recover 264 tubes of powerful poison which fell off a hospital van in London's east side. The tubes were picked up by small children who used them for playthings.

All night the police trailed the missing tubes from one child to another and by noon had recovered 260. The tubes were packed in bright orange colored boxes which made them very desirable toys in the eyes of the poor children of the section.

Inserted Without Authority

London.—Advertisements appearing in newspapers in Scotland stating that the Canadian Government guaranteed employment to emigrants throughout the year were inserted without approval of the Canadian authorities. Hon. L. C. M. Avery, Dominions Secretary stated in the House of Commons that steps were being taken to amend the situation.

Here and There

The Canadian Pacific purchasing
office located at Sicamous, B.C.,
spent more than \$100,000 in 1926 for
Okanagan products. Fifteen years
ago such purchases amounted to but
\$3,000.

With the fisheries of the province
of British Columbia running to \$21,
000,000 annually—or half the Cana-
dian total—numbers of enquiries
are being received from financial in-
terests in Eastern Canada and the
United States, with a view to ap-
plying out business opportunities.

Until the problem of truck com-
petition is solved satisfactorily all
transportation in Canada will suffer,
according to T. E. McDonnell,
Vice-President of the Canadian Pacific
Express Company, in a Toronto
address recently before the Trans-
portation Club. These are the
conditions that under the present transportation
regulations the railway and express
companies are operating under very
unfair conditions.

For the second time in three weeks
the stork has paid a visit to a Cana-
dian Pacific passenger train. Yes-
terday on the Imperial Limited going
east from Vancouver, Mrs. Olson,
of Malakwa, B.C., gave birth to a
son between Malakwa and Revel-
stoke. Mrs. Olson was on the way
at the time to the Revelstoke hospital.
Railway officials and employees
did all in their power to render assistance. Telegraphic dis-
patches from the hospital state that
both mother and son are doing well.

The election of J. H. R. Fairbairn,
of Montreal, chief engineer of the
Canadian Pacific Railway, as presi-
dent of the Engineering Alumni of
the University of Hart House recently.
An amateur dinner-smoker of the
alumni held in Hart House recently.
More than 150 men acclaimed the
new president with the enthusiastic
spirit characteristic of a gathering
of "School" men. The chief
speakers of the evening were Sir
Robert Falconer, President of the
University, and Mr. Fairbairn.

The rapid strides made by Prince
Edward Island's seed potato busi-
ness, aggregating 800,000 bushels
for the past season, mostly shipped
south, formed a subject of discussion
at the 51st annual convention
of the New Brunswick Farmers' and
Dairymen's Association here. It was
pointed out that this business has
rapidly developed; that ten years
back not a single seed potato was
sold outside of the province. The
remarkable advance in this business
was due, it was claimed, to the pro-
duction of a disease-free potato.

Immigration to Canada in the ten
months of the fiscal year ending
January 31st, amounted to 118,199,
compared with 76,439 for the same
period of 1925-6. This is an in-
crease of 55 per cent. January im-
migration amounted to 4,162, com-
pared with 2,324 for the preceding
January, a gain of 79 per cent. Of
this immigration 899 were British,
905 from the United States and 2,369
from other countries. During Janu-
ary 2,297 Canadians who had gone
to the United States with the intention
of remaining permanently re-
turned to Canada, making a total of
50,898 so returned for the ten
months of the fiscal year.

The Hon. William D. Euler, Minis-
ter of Customs and Excise, an-
nounces that the present period of
30 days of free entry into Canada
of United States motor tourists on
a permit will be extended to 90 days,
to conform with the privilege now
granted by the United States au-
thorities who admit Canadian cars
carrying Canadian tourists free into
that country for 90 days. The only
difference will be that the Canadian
permit will not initially be for 90
days, but for a first and second 90-
day extension, if and when the tourist
can show bona-fide and recom-
mendation from reputable associations
of automobileists in the United
States. A larger tourist move-
ment in Canada is expected to result from
the changes.

Called "Funny Face" Cried Self To Sleep

Miss Gussie Frutchewitz, Bronx, N. Y., writes: "For months I tried in vain to clear my face of horrible pimples. Once I overheard my dearest friend refer to me as 'pimple-face' and everyone laughed. I being used successfully to clear complexion when due to the poisons from constipation and finally tried them. Well, my picture took its own way, doesn't it?"

CARTER'S LITTLE LIVER PILLS move the bowels in a gentle manner free from pain and eliminate the poisons of constipation from the system. These poisons, unless removed, are absorbed by the blood and appear in the form of skin eruptions and blemishes. CARTER'S LITTLE LIVER PILLS in red packages, 25c, and 75c. Try them to-night—To-morrow refreshed—All drugs.

Strange, Romantic love Adventures of the Flapper you know

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

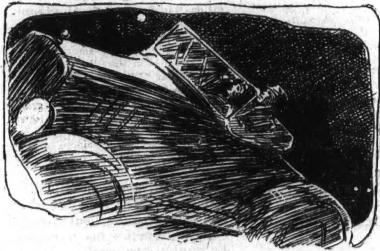

Published by arrangement with First National Pictures, Inc.

CHAPTER XXXI

The Challenge

Two cars crept upwards along the tortuous road that climbed the mountain. Kenilworth's red roadster, with its master at the wheel and Joanna settled snugly beside him in the single seat, glided silently from the streets of Monte Carlo, into the shrub-lined avenue that narrowed gradually until it became barely more than a path sloping sharply toward

and villa which, on moonlight nights, make this road up La Turbie one of the beautiful drives of Europe. "One who climbs the hill tonight, Master, must have a steady nerve and a purpose," said the Monegasque who guided the car in which Brandon rode. "The purpose is worthy of the nerve, the effort is tame while," Brandon returned. "One man's object is a woman, another's may be gold. I imagine your nerve would not fall you in either case."

Almost at the same minute a disc of pale yellow light shone through the mist—"What was that?" Joanna asked.

the summit of the hill. Ahead of them; Brandon, muffled in tweeds covered by a black domino, sat beside him as far as the road he followed, he observed:

"There are few women for whom I'd take myself or my men into danger. Your women are playthings. That's why we didn't let our invitees come."

The lamps of Kenilworth's roadster suddenly revealed another picking its way slowly just ahead. Almost at the same moment a disc of pale yellow light shone through the mist to be followed by a second, by the gray mass of cloud-like atmosphere. "What was that?" Joanna asked.

"The lighthouse at La Turbie village," he replied. "Quer necessarily, isn't it? A lighthouse to warn travellers on a mountain road!"

While the dim radiance cast its sickly illumination over them Kenilworth examined the girl who sat so close beside him. He saw that her white throat, on which a single great red ruby hung, was glistening in the dampness against the contrast of her hair and the black of the gown she had chosen to wear. She had thrown back her head. Her wrap, of some pale clinging stuff, stiffened at the collar with a ripple of chinchilla, lay open. Kenilworth felt for the bank with his front wheels and brought the roadster to a stop.

"It's a treacherous atmosphere," he admitted her. "One can never tell what's next."

"Consequences are uncertain, things to make into a prophecy, aren't they?" she asked. He studied her a moment, peering at her through the fog. He saw the vague shadows lurking in her eyes, shadows that came and then evaporated as if they were leaves of the mist that had reached a haven of brown depths.

"Are you wondering," he asked, "what is to be the outcome of—well,

of your invitation to a battle between us tonight? If you say, it is useless. There will be one thing or another; joyful, glorious, restful, beautiful, or, so far as I am concerned, empty and, in that event, meaningless to you."

She was silent, motionless, for a time. Then: "How are we going about it, Roddy? You are to tell me that you love me, want me, and recite all those rituals of adoration for which you are distinguished. That much of course. I am to measure you and measure myself. That will be the obvious program. But there must be some new note. What shall it be?"

He guided the car back into the road, satisfied that the bigger would have gone a safe distance behind. "You are to tell me that there is one overwhelming now factor," he declared then. "You and the whim of you to throw your colors at my feet and challenge me to fasten them to my shield—if I can. I've never experienced that before, from a woman. They've done it, of course, but they thought they were furtive about it."

"I don't believe in being furtive," she returned. "I used to be the fashion, and the custom, I know. But what's the use? Any woman always knows what another woman thinks. And every man knows what his brother wants. They pretty well know what they think about each other—every woman and every man. So much has gone wrong in the world. It seems to me people have been trying to make a mystery of life, a game out of the plain and common. It's more fun to be honest. If a girl builds a wall round herself she always leaves an opening that she can peek through. That's the breach through which a man conquers her, if she's weak. So why have they wall? I think it's better to stand out in the open—better for a girl, I mean. She can see what's coming at her, then, and be ready for it."

"So you have decided to put your arms down and tell me I may have whatever I can win? Just why, if it's not asking an advantage, have you chosen me?"

As was her way, at times, she considered this quietly. He waited, apparently intent upon keeping his car safely away from the ledge at the outer side of the road. At last she answered him:

"It's because you're straight, Roddy. Right, according to your standards. You've never fooled me. I've not conceded your desire of me since that night at Yvonne's back in New York, when I asked you to wipe John's accusing kiss from my lips with a warmer one from yours. I knew enough then, thanks to what I'd learned of men, to realize by the feel of your arms that you would be determined to hang me up, if you could, with your other trophies—as you would any woman who'd make herself interesting to you. And you've never tried to deceive me. You've even amused me, tremendously. Now I'm wondering if, after all, I haven't been deceiving myself."

She paused, but Kenilworth did not speak. He thought she would go on, and presently she did.

"John has done a big thing. When his opportunity came to him he went like we are going now, through the mist, straight toward the end of a beautiful rainbow. He tells me I've been in a fixin' hole ever since he left. His pride and his triumph doesn't fit in with his love me because, he says, I've wasted my time gilding the clouds with tinsel. Betty Weymouth is convinced I'm not worthy of Ted Dorminster who's not like you, Roddy, because he wants to marry me." And I suppose I'm not worthy of whoever it was who gave me my money, for he has never revealed himself. So it may be that I'm worth only the kind of thing you've been wanting to give me—the sort of thing you gave Yvonne."

"When I was Twenty-seven of the silks I was what I thought it was smart to be—bold enough to let everybody know I was a girl, that I enjoyed being a girl, unashamed to take everything I dared accept out of life without guilt. Perhaps I'm too thin and scartit lips are too much knowledge. Of things as they really are does spoil a girl inside as much as some people say they do outside. Go ahead, Roddy, and find out—for me. I'll fight you like the devil, but I want to know if you and what you represent can win! If you do, John wins; Betty Weymouth wins; everybody wins!"

Cuticura Baths Best for Children

Teach your children to use Cuticura Soap because it is best for their tender skins. A salve made from the secret formula of Cuticura Ointment to fight signs of irritation or dandruff. It keeps the skin and scalp clean and healthy. Cuticura Talcum is cooling and soothing.

Mrs. W. H. Skyring

Guelph, Ont.—"There is nothing better as a building tonic and blood booster than Dr. Pierce's Golden Medical Device. Seven times when I was rundown, suffering from a combination of thin and impoverished blood, I took the 'Golden Medical Discovery' and always obtained good results. It enriched my blood, restored me to the normal condition, built me up in health and made me feel like a new person. I also found it a splendid aid in building my strength and to give me strength. I always recommend Dr. Pierce's medicine to those whom I am failing for I know them to just as good as Mrs. W. H. Skyring, 52 Nottingham St.

At all drug stores, or send to 100 Centes Street, Guelph, Ont., for trial package.

Canada's Diamond Jubilee

1. Granite Elevators at Fort William. 2. Victoria's Western Point Touched by True-Photo Shows Parliament Buildings. 3. Home of the "New Outlook" at Toronto. 4. An extensive tour through the Rockies is a High-Lite of the trip. 5. A Trip Down the Great Lakes is on the itinerary.

The Dominion-wide celebration of Canada's sixtieth year of Confederation which is being planned for July of this year, will be the most remarkable and extensive ever held. The last 60 years of a united Canada were the most glorious for years and with the completion of the Canadian Pacific Railway. It is in furthering the bond between the people of the east and the west that this country will be engaged to a large extent during the celebration.

Our Government has made plans for bringing the people of all parts of Canada together under

pleasant auspices and at the same time offering them an opportunity of gaining greater familiarity with their country through personal contact has been arranged by the New Outlook, official organ of the United Church of Canada.

On June 22, 1911, the "New Outlook" special train will leave Toronto with a limited number of passengers from the eastern provinces aboard, and follow the confederation route. The "Confederation Special," as it will be known, will stop on its way to the Rockies and the West Coast, and the all-expense plan which will enable practically all who have the time to

travel to do so. It will touch all the principal cities and towns in the West and open up many new scenes. The hospitality of the westerners is well known, so it is no surprising to learn that when the "New Outlook" reaches the many-made organizations and individuals in every city included in the itinerary offered to entertain the party members that was given even far beyond the bounds of mere enjoyment. The latest invitation is from the Prince of Wales' Ranch at the Bow River to which the members of the annual train party will motor from Calgary on July 1st.

Mr. Gitzel's Farewell.

As announced in last week's Sun, Mr. Gus Gitzel has left Stony Plain for his new location, a 400-acre farm near Wembley, Alberta. Having been busy the last fortnight making preparations for his departure, Gus was unable to get around his large circle of friends to give them a hand.

Mr. Gus Gitzel.

shake and a farewell, and takes this means of giving them the latter.

Mr. Gitzel has lived in this district for a number of years, has proved himself a progressive and enterprising farmer, and has made a success of everything he has put his hand to.

The best wishes for health and prosperity from their friends and acquaintances in town and district go with Mr. and Mrs. Gitzel to their new home in the North.

Messrs. Otto Gitzel and Adolf Forster (a brother of Mrs. Gitzel) both of Leduc, leave at a later date, to join the Gitzel party in the North.

Spruce Grove News

Auctioneer Brox is holding a sale on Tuesday next, Feb. 29th, of the stock and goods of the late Peter Welch, six miles south of the Grove.

Conrad Fuhr, Edmonton, was a week-end visitor at the home of his parents, south of town.

A very pleasant evening was spent on Thursday last at the home of Mr. and Mrs. Elder, when they entertained a party of their friends. Cards was the order of the evening.

An auction sale is being held today (the 24th) of the goods and chattels of the late Louie Callihoo, under the direction of the administrator of the estate. The sale is being held on I. R. 132, 1 mile east and 5 north of the Grove.

Mr L Sinclair is the new Reeve of Spruce Grove Municipality.

Duffield News Items

A very large crowd attended a whist drive at the home of Mr. and Mrs. W. J. Taylor, for the benefit of the Women's Institute. An enjoyable evening was spent by all. A hearty vote of thanks was given to Mrs. Taylor and the ladies of the Institute. Two well-known young ladies were escorted to the party by the Village Professor.

Mr J Clements held a sale last week. Mr Clements, who had been farming near town, expects to make his home in Edmonton for awhile.

Mrs M Turlock returned home Saturday morning from her visit to the East.

A meeting was held last week of the Duffield Sports Ass'n, when plans for the erection of a covered curling rink and a skating rink were up for discussion. It is proposed to have these in operation by next season, and as an evidence of good faith, a goodly sum to help put the plans into effect was signed up before the meeting closed. The site for the rinks is to be south of the Percy Faulks store.
